At CPC Training Solutions, our primary aim is to keep our clients legal and compliant through accredited training courses. Covering a range of professional driving pre-requisites as well as warehouse, first aid, fire safety and more, our experienced trainers deliver courses in house at our training centre in Oldbury, West Midlands or at your own premises for convenience. We at CPC Training Solutions Ltd support ex service personnel by offering a 10% discount to all ex service personnel on all our training courses. CPC Training Solutions was founded by husband and wife, Sue and David Hilton. With Sue's background in teaching and Dave's extensive experience as an HGV driving instructor, they are in the unique position to design driver CPC courses and safety training courses that deliver on knowledge as well as successful learning experiences for all. Sue's input into the course design ensures individual learning styles are catered for.
